### **Terms of Acceptance**

The goal of our office is to enable patients to gain control of their health. To attain this, we believe communication is the key. There are often topics that are hard to understand and we hope this document will clarify those issues for you.

**Please read below and if you have, any questions please feel free to ask one of our staff members.**

#### *Informed consent:*

You are the decision maker for your health care. Part of our role is to provide you with information to assist you in making informed "and involves your understanding and agreement regarding the care we recommend the benefits and risks associated with the care, alternatives, and the potential effect on your health if you choose not to receive the care.

We may conduct some diagnostic or examination procedures if indicated. Any examinations or tests conducted will be carefully performed but may be uncomfortable.

Chiropractic care centrally involves what is known as chiropractic adjustment. There may be additional supportive procedures or recommendations as well. When providing an adjustment, we use our hands or an instrument to reposition anatomical structures, such as vertebrae. Potential benefits of an adjustment include restoring normal joint motion; reduce swelling and inflammation in a joint, reducing pain in the joint, and improving neurological functioning and overall well-being.

It is important that you understand, as with all health care approaches, results are not guaranteed, and there is no promise to cure. As with all types of health care interventions, there are some risks to care, including, but not limited to: muscle spasms, aggravating and/or temporary increase in symptoms, lack of improvement of symptoms, burns and/or scarring from electrical stimulation and from hot or cold therapies, including but not limited to hot packs and ice, fractures (broken bones), disc injuries, strokes, dislocations, strains, and sprains. With respect to strokes, there is a rare but serious condition known as an "arterial dissection" that typically is caused by a tear in the inner layer of the artery that may cause the development of a thrombus (clot) with the potential to lead to a stroke. The best available scientific evidence supports the understanding that chiropractic adjustment does not cause a dissection in a normal, healthy artery. Disease processes, genetic disorders, medications, and vessel abnormalities may cause an artery to be more susceptible to dissection. Strokes caused by arterial dissections have been associated with over 72 everyday activities such as sneezing, driving, and playing tennis.

Arterial dissections occur 3-4 of every 10,000 people whether they are receiving health care or not. Patients who experience this condition often, but not always, present to their medical doctor or chiropractor with neck pain and headache. Unfortunately, a percentage of these patients will experience a stroke.

The reported association between chiropractic visits and stroke is exceedingly rare and is estimated to be related in one in one million to one in two million cervical adjustments. For comparison, the incidence of hospital admission attributed to aspirin use from major GI events of the entire (upper and lower) GI tract was 1219 events/ per one million persons/year and risk of death have been estimated as 104 per one million users.

It is also important that you understand there are treatment options available for your condition other than chiropractic procedures. Likely, you have tried many of these approaches already. These options may include but not limited to: self-administered care, over-the-counter pain relievers, physical measures and rest, medical care with prescription drugs, physical therapy, bracing, injections,

and surgery. Lastly, you have the right to a second opinion and secure other opinions about your circumstances and health care as you see fit.

I have read, or have had read to me, the above consent. I appreciate that it is not possible to consider every possible complication to care. I have also had an opportunity to ask questions about its content, and by signing below, I agree with the current or future recommendation to receive chiropractic care as is deemed appropriate for my circumstance. I intend this consent to cover the entire course of care from all providers in this office for my present condition and for any future condition(s) for which I seek chiropractic care from this office.

Women Only:

To the best of my knowledge I am / am NOT (circle one) pregnant. If I am pregnant, I understand no x-rays will be taken for diagnostic interpretation.

Consent to Evaluate and Treat a Minor:

I, \_\_\_\_\_ being the parent or legal guardian of \_\_\_\_\_, have read and fully understand the above terms of acceptance and hereby grant permission for my child to receive chiropractic care or PT.

Communications:

In the event that we would need to communicate your healthcare information, to whom may we do so?

Spouse: \_\_\_\_\_ Children: \_\_\_\_\_

Other: \_\_\_\_\_ No One: \_\_\_\_\_

May we leave a message regarding your personal healthcare information on any answering device, i.e. home answering machines or voicemails? Yes ( ) No ( )

## **Cancellation Policy/No Show Policy**

### ***1. Cancellation/ No Show Policy***

We understand that there are times when you must miss an appointment due to emergencies or obligations for work or family. However, when you do not call to cancel an appointment, you may be preventing another patient from getting much needed treatment. Conversely, the situation may arise where another patient fails to cancel and we are unable to schedule you for a visit, due to a seemingly "full" appointment book.

**If an appointment is not cancelled at least 24 hours in advance you will be charged a Twenty dollar (\$20) cash fee; this will not be covered by your insurance company.**

### ***2. Scheduled Appointments***

We understand that delays can happen however, we must try to keep the other patients and doctors on time.

**If a patient is 15 minutes past their scheduled time we will have to reschedule the appointment.**

### ***3. Account balances***

We will require that patients with self-pay balances do pay their account balances to zero (0) prior to receiving further services by our practice.

Patients who have questions about their bills or who would like to discuss a payment plan option may call and ask to speak to a business office representative with whom they can review their account and concerns.

Patients with balances over \$100 must make payment arrangements prior to future appointments being made.
